Dear Ms.Kelly,

Thank you for you for the email per my voicemail request to Patrick Wilson today. However, my discussion with John Beach & Patrick Wilson brought up a fact regarding caulk testing that Malibu Unite had done and an email Environ sent Malibu Unite 2 weeks ago requesting where Malibu Unite had obtained their caulk samples, both Sean & Patrick told me Malibu Unite had not responded. Patrick to ld me yesterday afternoon he would forward me the email Environ had sent, that is what I was requesting as I had not received it today. The attachment you sent "Letter to Jennifer DeNicola" is not the email from Environ. I would like that email. I met with the Superintendent, Sandra Lyons this afternoon and she also confirmed that Environ had sent an email. Please kindly send me a copy so I can follow up.

Kind Regards,
Tara Buran

Hi Tara –

Patrick Wilson forwarded your voice message to me. Thank you for your questions related to the PCBs at Malibu High School. EPA shares the community's concerns and is working with the district to ensure the safety of the students, teachers, and faculty who use these facilities at the campus. EPA expects to have further information/correspondence on this issue soon, and will gladly send it to you as it becomes available. Most of your specific questions are best addressed to the District.

Attached, please find recent EPA correspondence on this issue in case you don't have it.

For your future reference, I will now be serving as the liaison for community input on all issues related to PCBs at Malibu High School.

Thanks so much for your patience.

Best,

Kelly
